Patric H.

General Partner @ Fundamental. Always available for hungry entrepreneurs in construction and renovation tech.
Metropolregion Berlin/Brandenburg

Zusammenfassung

My goal is to help exceptional founders realize their highest ambitions in construction and renovation tech. I work alongside entrepreneurs from the earliest stages as their business partner, drawing upon my B2B/industrial operating experience at thyssenkrupp (TYEKF) and E.ON (EOAN) and my CleanTech experience.

I am captivated when founders create simplicity and instant value. I am also drawn to business models built on frequency or transparency.

Within the Fundamental family, I work with a broad range of companies in construction, renovation and mining. Some rewire the industry's tech stack; some create low-friction high-reliability purchasing; and others disrupt markets through asset networks. All of them are led by inspirational founders and management teams who combine exceptional operators capabilities with unique domain insights in construction, renovation and mining.

For more details, visit: <https://foundamental.com/people/patric-hellermann/>

Specialties: Asset networks in off-site/prefab, full-stack full-service models, APIs and protocols, multi-parameter optimization

-based. Opinions are my own.

Berufserfahrung

Foundamental
Founding Partner, GP
Juli 2018 - Present (3 Jahre 10 Monate)

The global investor in construction and renovation technology

Rayon

Investor

Februar 2022 - Present (3 Monate)
